Protect the Health of Your Baby and Others

## Diapering Tips

1. Place clean paper towels on diapering surface.
2. Set your baby on the towels, then remove soiled clothing and diaper.
3. Clean your baby and throw soiled wipes, diaper, and used paper towels into trash. Place soiled clothing into a plastic bag.
4. Clean your hands with wipes and throw these into trash.
5. Put a fresh diaper and clothes on your baby.
6. Remove baby from diapering area and wash his or her hands.
7. Clean soiled areas of diapering surface with wipes and throw these away.
8. Spray diapering surface with disinfectant solution and allow to air dry.
9. Wash your hands thoroughly with soap and water, or use a waterless hand gel.
