

2008

Continuing Education Seminar for Licensed & Limited Licensed Radiologic Technologists
Presented by Tawanna Smith, M.A., RT(R)(T)(CT)

9:30 - 10:20 **Radiographic Artifacts: “Do You See What I See?”** (1 hr CE)

This presentation is designed to provide the knowledge to identify the cause of artifacts and correct the problem which created the artifact. You will learn about exposure, processing and patient artifacts as well as equipment malfunction and film handling & storage artifacts.

10:30 - 11:20 **Radiographic Image Production** (1 hr CE)

This presentation will cover the factors involved in image production and how they affect the production of a quality image. The focus will be on contrast, density, distortion and sharpness of recorded detail as they related to the production of a quality radiograph.

11:30 - 12:20 **Chest Radiography** (1 hr CE)

This presentation covers radiographic anatomy and positioning of the chest. It provides concepts, terminology and practical tips to prepare you to produce optimal images and review images for acceptability.

12:20 - 1:30 **LUNCH on your own**

1:30 - 2:20 **Radiography Ethical & Legal Issues** (1 hr CE)

This presentation will cover ethical and legal issues related to radiography and the technologist.

2:30 - 3:20 **Are There Monsters In The Darkroom?** (1 hr CE)

This presentation is a look at the health risks associated with improper use of x-ray processor chemicals as well as proper handling and venting techniques when using x-ray processor chemicals.

3:30 - 4:20 **Pediatrics: “Children Are Not Young Adults”** (1 hr CE)

This presentation is designed to provide the knowledge to recognize physical and age-related attributes as well as age related comfort and safety needs of the pediatric patient.
