

Continuing Education Seminar for Limited Licensed Radiologic Technologists

X-ray Continuing Education that Works!

2010

Presented by Ray Winters, M.S., RT(R)(CT)
Director of Radiologic Sciences at Arkansas State University

8:30 – 9:20 **Pediatric Radiography** (1 hr CE)

This presentation is designed to give a basic working knowledge of some common sense, practical approaches of pediatric radiography. It reviews some of the accepted methods of immobilization, patient care and techniques.

9:20 - 10:10 **Radiographic Anatomy and Positioning of the Spine** (1 hr CE)

This presentation covers radiographic anatomy and positioning of the cervical, thoracic and lumbar spine. It provides concepts, terminology and practical tips to prepare you to produce optimal images and review images for acceptability.

10:20 - 11:30 **Radiation Monitoring: Film Badges, Film Badge Reports and Room Design** (2hrs CE)

This presentation covers the various types of radiation monitoring devices, rules and regs, and looks at various requirements for room design. It includes some of the “ins and outs” of radiation dose management.

11:30 - 12:15 **LUNCH on your own**

12:15 - 1:10 **Applied Radiologic Pathology II** (1 hr CE)

This presentation is designed to give a basic working knowledge of pathology as it pertains to diagnostic medial radiograph, as well as demonstrate radiographic manifestations. Pathological conditions commonly encountered by physicians offices are presented and reviewed.

1:10 – 2:00 **What About My Needs? Generational Differences in Today’s Workplace** (1 hr CE)

A look at how the different generations view work, relationships and technology. How these various differences and paradigms play out in the modern medical clinic will be explored.
